Uninstall

You can uninstall ParetoLogic Anti-Virus PLUS and remove all associated files from your computer except personal preferences and licensing information. This requires you to close all your applications and re-start your computer.

Note: In order to uninstall the application you will need to be logged on to your system as an administrator. See [Operating Privileges](#) for more information.

To uninstall the program from Windows Vista®:

1. Click Start and click Control Panel.
2. In the left pane, select Control Panel Home.
3. In the Program section, click Uninstall a Program.
4. Select ParetoLogic Anti-Virus PLUS and click the Uninstall button.

To uninstall the program from Windows® XP and Windows® 2000:

1. Open the Add or Remove Programs window by doing one of the following:
 - For Windows Classic view, click Start and select Settings | Control Panel. Double-click the Add or Remove Programs option.
 - For Windows XP categories view, click Start and select Control Panel. Click the Add or Remove Programs link.
2. Select ParetoLogic Anti-Virus PLUS and click Remove.
3. Click Yes in the confirmation dialog that appears.
4. If the program is running, click Yes to close it and to continue.
5. Ensure that all other programs are closed and data is saved, and click Yes to restart your system.
